Author Index

Abdel-Dayem, S., *see* Hamdy, A. et al.
Abu-Zeid, M., *see* Hamdy, A. et al.
Al-Amoud, A.I., *see* Mohammad, F.S. et al.
Alireza Taghavi, S., *see* Mariño, M.A. et al.
Al-Taie, M.T., *see* Eloubaidy, A.F. et al.
Bajwa, M.S., *see* Sekhon, B.S. et al.
Belford, R.K., *see* Yunusa, I.A.M. et al.
Brown, D., *see* Kerr, G. et al.
Busch, J.R., *see* King, B.A. et al.
Cherif, K., *see* Gharbi, A. et al.
Chieng, S.T., *see* Gupta, G.P. et al.
Clapaki, G., *see* Michelakis, N. et al.
Daghari, H., *see* Gharbi, A. et al.
De Malach, Y., *see* Pasternak, D. et al.
Duncan, J.E., *see* Messina, M.G. et al.
Eisenhauer, D.E., *see* Graterol, Y.E. et al.
Elmore, R.W., *see* Graterol, Y.E. et al.
Eloubaidy, A.F., Hussain, S.M. and Al-Taie, M.T.
Field evaluation of desalinization models 1
Fornstrom, K.J., *see* Kerr, G. et al.
Gharbi, A., Daghari, H. and Cherif, K.
Effect of flow fluctuations on free draining, sloping furrow and border irrigation systems 299
Graterol, Y.E., Eisenhauer, D.E. and Elmore, R.W.
Alternate-furrow irrigation for soybean production 133
Gupta, G.P., Prasher, S.O., Chieng, S.T. and Mathur, I.N.
Application of DRAINMOD under semi-arid conditions 63
Hamdy, A., Abdel-Dayem, S. and Abu-Zeid, M.
Saline water management for optimum crop production 189
Hanson, B.R., Prichard, T.L. and Schulbach, H.
Estimating furrow infiltration 281
Helalia, A.M.
The relation between soil infiltration and effective porosity in different soils 39
Hussain, S.M., *see* Eloubaidy, A.F. et al.
Kanemasu, E.T., *see* Rachidi, F. et al.
Kerr, G., Pochop, L., Fornstrom, K.J., Krall, J.M. and Brown, D.
Soil water and ET estimates for a wide range of rainfed and irrigated conditions 147
King, B.A. and Busch, J.R.
Computer model for on-farm irrigation system planning 239
Kirkham, M.B., *see* Rachidi, F. et al.
Krall, J.M., *see* Kerr, G. et al.
Mariño, M.A., Tracy, J.C. and Alireza Taghavi, S.
Forecasting of reference crop evapotranspiration 163

Mathur, I.N., *see* Gupta, G.P. et al.
Messina, M.G. and Duncan, J.E.
Irrigation effects on growth and water use of *Quercus virginiana* (Mill.) on a Texas lignite surface-mined site 265
Michelakis, N., Vougioucalou, E. and Clapaki, G.
Water use, wetted soil volume, root distribution and yield of avocado under drip irrigation 119
Mohammad, F.S. and Al-Amoud, A.I.
Water conservation through irrigation scheduling under arid climatic conditions 251
Nerd, A., *see* Pasternak, D. et al.
Nofziger, D.L., *see* Stone, J.F. et al.
Pasternak, D., Nerd, A. and De Malach, Y.
Irrigation with brackish water under desert conditions IX. The salt tolerance of six forage crops 321
Pochop, L., *see* Kerr, G. et al.
Prasher, S.O., *see* Gupta, G.P. et al.
Prichard, T.L., *see* Hanson, B.R. et al.
Rachidi, F., Kirkham, M.B., Stone, L.R. and Kanemasu, E.T.
Soil water depletion by sunflower and sorghum under rainfed conditions 49
Roberts, J. and Rosier, P.T.W.
Physiological studies in young *Eucalyptus* stands in southern India and derived estimates of forest transpiration 103
Rosier, P.T.W., *see* Roberts, J. et al.
Schulbach, H., *see* Hanson, B.R. et al.
Sedgley, R.H., *see* Yunusa, I.A.M. et al.
Sekhon, B.S. and Bajwa, M.S.
Effect of organic matter and gypsum in controlling soil sodicity in rice-wheat-maize system irrigated with sodic waters 15
Shkinkis, C.
Investigations about the optimum depth of drains in loamy soils in Latvia 83
Stone, J.F. and Nofziger, D.L.
Water use and yields of cotton grown under wide-spaced furrow irrigation 27
Stone, L.R., *see* Rachidi, F. et al.
Tennant, D., *see* Yunusa, I.A.M. et al.
Tracy, J.C., *see* Mariño, M.A. et al.
Vougioucalou, E., *see* Michelakis, N. et al.
Yunusa, I.A.M., Sedgley, R.H., Belford, R.K. and Tennant, D.
Dynamics of water use in a dry mediterranean environment I. Soil evaporation little affected by presence of plant canopy 205
Yunusa, I.A.M., Sedgley, R.H., Tennant, D. and Belford, R.K.
Dynamics of water use in a dry mediterranean environment II. A test of four evaporation models using microlysimetry under spring wheat 225
